

BrainyAct Home Equipment and Space Requirements

With the purchase of your in-home BrainyAct Program you will receive the following equipment.

BrainyAct Computer and Monitor

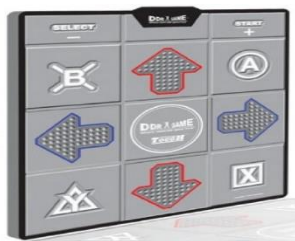

Kinect Sensor and Adapter

Provides the eyes and ears for BrainyAct®

Dance Mat

Tracks reaction times for all gross motor and floor exercises

Ear Buds

Used for auditory exercises

Space Requirements

Play area of approximately 5-9 feet of available space.

Please make sure that the height of camera is the same height of the players face for best interaction.

Strong Internet Connection, minimum of 10Mbps recommended and close to an electrical outlet.

On top of a desk or console table is best.
